

Professional Experience & Education

Experience

Virtual Robot Simulator

Project Team Lead (Part-time)

Jun 2025 – Present · Remote · Cedar Park, Texas

- Contributed to development of a VEX-focused robotics simulation platform expanding the original FTC-based VRS system.
- Developed full-stack simulation and tooling features for virtual robot testing and debugging workflows.
- Worked on modular CAD libraries and simulation infrastructure supporting efficient robot prototyping.
- Collaborated with software, UX, and firmware teams to improve usability and platform performance.
- Supported platform growth through feature development, documentation, and user feedback integration.
- Contributed to a platform serving 50,000+ monthly users within the robotics community.

Skills: *Technical Project Leadership, React Native, Simulation Infrastructure, CAD Libraries, Full-Stack Development*

Virtual Robot Simulator

Summer Intern

May 2025 – Jun 2025 · Remote

- Contributed across software, CAD, testing, and documentation workflows within a robotics development team.
- Debugged and optimized robotics codebases to improve simulator reliability and performance.
- Assisted with CAD modeling and virtual robot design for competitive robotics applications.
- Mentored FTC robotics teams on autonomous programming and competition strategy.
- Helped develop a React Native-based interface for telemetry visualization and collaboration.

Skills: *HTML/CSS, SDKs, Robotics Simulation, CAD Modeling, React Native*

Round Rock High School Co-Op

Chief Executive Officer

May 2026 – Present · On-site

- Lead a student-run organization focused on business, technology, and engineering initiatives.
- Oversee operations, branding, and cross-functional collaboration across technical projects.
- Spearheading autonomous delivery initiatives integrating robotics and software systems.
- Working with school leadership to expand the organization into an accredited CTE-aligned program.
- Mentor students in leadership, software development, and engineering problem-solving.

Skills: *Team Leadership, Project Management, Entrepreneurship*

Round Rock High School

LightSpeed(IT) Director

Mar 2025 – Present · Round Rock, Texas

- Led a student team improving school e-commerce and digital store operations.
- Designed and deployed a custom iOS inventory management app with barcode scanning.
- Mentored members on inventory systems and operational workflows.
- Oversaw technical improvements supporting scaling operations and workflow efficiency.

Skills: *iOS Development, Barcode Systems, Inventory Management, Team Leadership*

HallHop

Founder

Nov 2024 – Present · Self-employed

- Built a full-stack Chrome extension and Flask REST API for digital hall pass management.
- Optimized Home Access Center scraping infrastructure with ~7× performance improvements.
- Integrated Supabase with row-level security and JWT authentication.
- Supported onboarding for 4,000+ students with scaling plans for 10,000+ users.
- Collaborated with administrators and IT staff to improve operational workflows.

Skills: *Flask, REST APIs, Supabase, JWT Authentication, Web Development*

Transforze

Software Engineer (Part-time)

Nov 2025 – Present · Remote · Cedar Park, Texas

- Developing an AI-native multi-tenant CRM platform focused on workflow automation.
- Building backend infrastructure using Supabase, PostgreSQL, and RLS.
- Developing streaming AI pipelines for business plan generation and task management.
- Architecting scalable frontend systems with React Admin and TypeScript.

Skills: *PostgreSQL, Supabase, React Admin, TypeScript, AI Infrastructure*

Lone Star Ridgebacks

Website Manager

Jun 2025 – Dec 2025 · Remote · Cedar Park, Texas

- Redesigned and modernized the company website to improve UX and SEO performance.
- Implemented animations, image galleries, and structured data markup.
- Developed secure Wix-hosted document preview systems.
- Optimized frontend performance, accessibility, and maintainability.

Skills: *HTML/CSS, SEO, Frontend Development, Wix*

LPL Financial

Machine Learning Intern

Jun 2024 – Sep 2024 · Remote · Austin, Texas

- Contributed to development of an AI-powered chatbot for financial services.
- Assisted with conversational AI model testing and optimization.
- Worked on prompt refinement and workflow optimization.
- Gained hands-on experience with enterprise AI integration.

Skills: *Machine Learning, Python, Conversational AI*

Best Brains

Academic Tutor

Oct 2022 – Jan 2023 · Austin, Texas

- Tutored elementary and middle school students in mathematics, reading, and writing.
- Adapted teaching strategies for diverse learning styles and disabilities.
- Collaborated with instructional staff to support student progress.

Skills: Mentoring, Inclusive Education, Communication

Education

Round Rock High School

Aug 2023 – Mar 2027

Grade: Senior

Activities & Societies:

DECA • Mu Alpha Theta • Round Rock High School CO-OP • Cross Country • Student Council • National Spanish Honor Society • VEX Robotics

Academy:

Science, Technology, Engineering & Mathematics (STEM) and Business & Industry Academy

Relevant Coursework:

Advanced Computer Science I • AP Precalculus • Introduction to Engineering Design • Principles of Engineering • AP Seminar • TAG Advanced English II
